# Chairman's Message ”

Hello Students!

On behalf of every member associated I welcome you to Vinayak Vidyapeeth. On this opportunity, I would like to share some of my personal beliefs. While growing up like you, I would constantly dream of college education and as it was many years back. So, in that era the education structure offered to us students by society was not in reach of many capable students due to many reasons like money, distance, responsibilities etc. So, I would constantly dream of doing the impossible in those times to make education reach every doorstep and made available to students in present time what we were not able to afford in my time. From that time, I have maintained in my mind a single goal of giving students,

especially those who have a rural background, tools with which they can have an equal chance like many others to reach their dreams and destiny. For this purpose I laboured through difficult time; giving my everything to give you what I am offering to you now as I have achieved that goal by building these educational structures which are at par with industry standards, so that our students who by reason of money and distance find themselves unable to realize their dreams, can achieve what they want through our less expensive and highly standardized teaching facilities. Here we teach, train and prepare the students to a level where they can handle any situation independently to achieve higher degree of excellence in professionalism.

Wishing you all the best

**Dr. Somendra Tomar**  
Chairman

## “ Director's Message

Disciplined student is a ruler of his own. Discipline helps in obtaining higher goals and it is important in everyone's life. It is a way of being sincere, diligent, honest, hardworking, strict followers of rules and social norms. It is my strong belief that the rule breakers must be identified and counselled for improving their behavior in future for putting them on the right path. Discipline makes students perfect to overcome future challenges. It is one of the most valuable assets of every student. Students who are not disciplined, they should be taught and discouraged to be indisciplined. Therefore, I accept that discipline plays a great role in the life of a student.
