

What is iTrack (iLEP)?

iTrack is a **plug-and-play learning ecosystem** that goes beyond traditional eLearning. It bridges the critical gap between **academic learning and real-world application**, enabling students to gain early exposure to emerging technologies, hands-on projects, innovation, and career pathways—while integrating seamlessly with your school's existing systems.

iTrack Platform Supporting Features: -

1. 20,000+ minutes of world-class learning content across emerging technologies and future-ready skills.
2. **1,000+ job and internship opportunities** to help students explore real career pathways.
3. **100+ industry mentors to** guide students through learning, projects, careers, and entrepreneurship.
4. **100+ industry-relevant projects** for hands-on learning and practical exposure.
5. **Study Abroad through The Uni Guide** — for the first time by any portal in India, enabling students to directly search and apply to hundreds of universities globally, removing middlemen and making the process more transparent.
6. **Free world-class LMS** for institutions to manage learning, assessments, content, students, and outcomes efficiently.
7. **Powerful AI features** such as AI Question Generator, AI Chapter Summary, and AI Recommendation Engine for jobs, internships, and learning pathways.
8. **Investor Connect** — qualified student startups get the opportunity to connect with investors from India, Singapore, and Malaysia.
9. Powerful dashboards, reports, and analytics to help management track learning progress, engagement, performance, placements, and overall outcomes.
10. Strong engagement layer through Mobile App, Email, and WhatsApp notifications to keep students, faculty, and management connected and informed.
11. **Earn While You Learn** — students get the opportunity to upload their own courses and mentorship sessions for other learners across the iTrack ecosystem, enabling knowledge sharing while creating earning opportunities.
